

OCPC PRO-X Series

OCPC microSDXC/microSDHC card is a tiny memory card, same size as a standard microSD, but with eXtended Capacity, meaning it holds more data (over 32GB, up to 2TB) and uses the exFAT file system, making it ideal for high-resolution photos, 4K/8K video, drones, and action cameras, offering larger storage for demanding devices than older microSDHC cards.

Specification

Model	PRO-X
Capacity	8/16/32/64/128GB
Speed Level	C10 U1
Reading Speed	Up to 85MB/s
Storage Temperature	-25°C-85°C
Working Temperature	0°C-70°C
Compatibility	SDXC/SDHC
Compatible with	Digital Camera, Micro-single Camera, SLR Camera, On-board Media with SDHC/SDXC card slot device etc.
